

# PAID ONLINE SURVEY STUDY ABOUT COMMUNICATION EXPERIENCES

## We are looking for the following participants:

- People who have **Parkinson's disease**
- People who have **spasmodic dysphonia** (also known as laryngeal dystonia)
- People who have / had **head and neck cancer**
- People concerned with, or diagnosed with **early dementia** or **mild cognitive impairment**; and
- Their family members, friends, and / or coworkers

Your participation will help healthcare providers support both people with communication related diagnoses and the important people in their lives in staying connected through communication.

### You may be eligible if you:

- Have experienced speech / voice changes related to your diagnosis
- Are able to answer survey questions
- Have at least one family member, friend, or coworker who can also answer survey questions

### Details

- Open to anyone living in the U.S.
- The surveys can be done online or on paper
- Your participation should take 30–45 minutes
- Your family/friends/coworkers will participate **SEPARATELY** from you. It will take them 20-30 minutes
- Everyone who participates will receive a \$25 check in the mail
